REGISTRATION FROM \$650 GST INC

Professor Ian Meyers is Chairman of the ADA Inc. Dental Instruments, Materials and Equipment Committee, Chairman of the Australian Dental Research Foundation Research Advisory Committee & the 2010 President of the Queensland Branch of the Australian Dental Association. He is a product consultant to a range of dental companies and a member of the editorial board of The Australian Dental Journal and several other international journals. Ian commenced as Chief Dental Officer with Queensland Health early 2009 & maintains a part time private general dental practice in Brisbane and an adjunct professorial position with the University of Queensland.

A/Professor William George Young is a world authority on toothwear. A most entertaining presenter, Bill has given many presentations around Australia and internationally. Maintaining his specialist practice in Brisbane, Bill has written numerous national and international articles and remains at the forefront of the field, having recently published a second comprehensive book on toothwear and its management.

Dr Farid Khan has co-authored a textbook on toothwear. He has widely lectured on topics involving toothwear and is a dental practitioner based in Brisbane. Having completed extensive research projects into the field, Farid's main focus has been the clinical management of dental erosion, providing an in depth look into clinical perspectives relevant in day to day practice.

12 HOURS CPD APPROVED
